ICCONS®

STAINLESS STEEL THUNDERBOLT®PRO SCREW-BOLT

ICCONS® range of Thunderbolt®PRO Screw-Bolts has expanded again! Now ranging 316 stainless steel Thunderbolt®PRO Hex & Csk Head.

Estimated Time Of Arrival
AVAILABLE NOW

ICCONS® Thunderbolt®PRO Hex & Csk Head is the latest high tensile screw-in, self tapping concrete and masonry screw anchor for use in a wide range of applications found in the residential, commercial and infrastructure construction applications.

The Thunderbolt®PRO is the most complete screw-bolt range on the market with the entire range AS5216:2021 Compliant, ETA assessments for cracked concrete, fire performance and seismic ratings.

FEATURES

- AS 5216 Compliant
- ETA Assessed
- Seismic Approvals
- Stamped head markings
- Lightning-lock under head serrations (Hex)
- Fast installation
- Low expansions forces for close to edge applications
- Available on DesignPRO software

APPLICATIONS

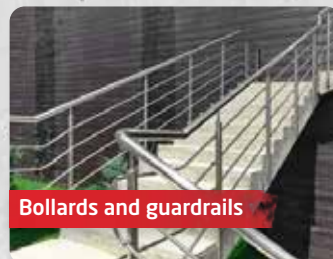

- 316 SS for high-corrosive environments
- Structural fixings
- Window systems
- Balustrading
- Façade systems
- Bollards & guardrails
- Seismic bracing
- Machinery & plant equipment
