ICCONS®

DESIGN-STARSTM™

low profile aesthetic cladding screw to metal or timber.

Estimated time of arrival
AVAILABLE NOW

Designed for flat or valley fixing to various light gauge steel profiles to steel or timber. The galvanised class 4 coating makes Design-Stars™ ideal for internal and external applications.

Incorporating a hardened steel universal drill point (for timber or steel substrates), and coarse thread enabling the screw to drill and tap its own thread without the need to pre-drill.

FEATURES

- Low profile head for aesthetic appearance
- Fast and easy installation
- Coarse thread for fast install
- Strong and durable connection
- Galvanised class 4 for internal and external applications
- Universal drill point for fastening to steel or timber substrates
- Available with or without EPDM sealing washer
- Full COLORBOND® colour range available

APPLICATIONS

- Flat or valley fixing light gauge steel
- Cladding
- Architectural panels
- Fences, gates and other applications requiring a low-profile finish
- Internal and external applications
